Keeping costs low.

A formulary, or drug list, is a list of medicine that your prescription drug plan covers. The Horizon Pharmacy program has two drug lists: Classic Formulary and Advantage Formulary. Medicine is placed in different levels or tiers, and the benefit you receive and how much you pay out of pocket depends on the tier of the medicine prescribed by your doctor.

- Generic drugs are Tier 1 and have the lowest cost sharing.
- Preferred brand-name drugs are Tier 2 and have the middle cost sharing.
- Non-Preferred brand-name drugs are Tier 3 and have the highest cost sharing.

Visit HorizonBlue.com/pharmacy to see information about our formularies.

Feel better and live well.

Generic drugs are as safe and effective as brand-name drugs and are usually less expensive. Generic drugs are manufactured under the same strict requirements that the U.S. Food and Drug Administration requires for brand name drugs.

Keeping your medicines safe.

A group of doctors and pharmacists regularly look at the Horizon Pharmacy drug lists. Decisions to add or remove drugs are based on a drug's safety and effectiveness. Drugs may be moved from the middle-cost tier to the higher-cost tier when a generic becomes available.

Horizon Pharmacy works with doctors to make sure our drug lists provide them choices that cover medical conditions. We support your doctors by telling them about our drug lists and drug list changes.
